<b>CONTRIBUTING AUTHORS</b> .....	7
<b>ACKNOWLEDGEMENTS</b> .....	9
<b>INTRODUCTION</b> .....	9
<b>THE GOULDIAN FINCH IN THE WILD</b> .....	10
Introduction	11
Taxonomy	11
Status	12
Population Monitoring	13
Distribution	14
Field Description of the Wild Gouldian Finch	15
<i>Tropical Summer—Wet Season, Summer Food,</i>	
<i>Tropical Winter—Dry Season, Breeding in the Wild, Molt</i>	
The Future of the Wild Gouldian Finch	23
<b>THE GOULDIAN FINCH IN CAPTIVITY</b> .....	25
<b>HOUSING</b> .....	26
Colony Housing	26
Susceptibility to the Effects of Cold and Wet Conditions	27
Housing in Temperate Regions	28
Housing in Tropical Regions	28
Indoor Housing in Cooler Regions	29
Housing Structures	29
<i>Conventional Aviaries, Suspended Cages and Aviaries,</i>	
<i>Cabinet and Cage Breeding, Holding Cages</i>	
Building Materials	32
Substrate	32
Nesting Receptacles	33
Feed Stations	34
<i>Water</i>	
Perches	35
Temperature and Humidity Control	35
Human Disturbance	36
Transportation	36
Carry Boxes	37
Quarantine	37
<b>NUTRITION</b> .....	38
Introduction	38
Protein	39
Minerals	39
<i>Grit</i>	
Vitamins	40
Carbohydrates	40
Fats	41
Nutritional Supplements	41
Dietary Cycles	41
Molt Diet	41

Non-breeding Diet	42
Pre-breeding Diet	42
Breeding Diet	43
Softfoods, Soaked and Sprouted Seeds	43
<i>Softfoods, Soaked and Sprouted Seed—Soaked Seed Process, Sprouted Seed Process</i>	
Dry Seed	46
<i>Purchasing Seed, Seed Storage</i>	
Water	47
<b>BREEDING</b> .....	47
Introduction	47
Selecting Stock	48
Establishing Breeding Pairs	49
Line Breeding	50
Incompatibility	52
Courtship Behaviour	52
Nest Preparation	53
Egg Laying and Incubation	54
Nestlings	54
<i>Nestlings on the Floor</i>	
Fledglings	55
Moult	55
Foster-parenting	56
<i>Bengalese Finches as Foster-parents, Gouldian Finches as Foster-parents, Fostering Method</i>	
Record Keeping	59
Breeding Mutations—Considerations	59
Health Difficulties in Mutations	61
<b>MUTATIONS AND COLOUR BREEDING</b> .....	62
Breeding Head Colours	63
Mating Expectations	63
<b>TABLE OF MATING EXPECTATIONS</b> .....	64
<b>MUTATIONS</b> .....	68
Blue	68
Seagreen	68
Sex-linked Pastel (Yellow-backed)	68
Dilute-backed	71
Australian Yellow	71
White-breasted	72
Lilac-breasted	72
Weak Mutations	73
<b>RECESSIVE INHERITANCE TABLE</b> .....	73
<b>COLOUR MUTATIONS, GENETIC INHERITANCE &amp; GENE ACTION</b>	74
Which Head Colour is Wildtype?	74
<b>PIGMENTATION AND COLOUR PRODUCTION</b> .....	75
Head	77

Neck	77
Back and Wings	78
Rump and Tail	78
Breast	78
Belly	78
<b>MUTATIONS</b> .....	79
<b>HEAD COLOURS</b> .....	79
Black-headed	79
Yellow-headed	80
<b>BODY COLOUR</b> .....	82
Blue	82
Seagreen	83
Sex-linked Pastel (Yellow-backed)	84
Dilute-backed	89
Yellow (Australian Yellow)	91
White-breasted	93
Lilac-breasted	96
<b>RARE MUTATIONS</b> .....	97
Blue-breasted	97
Cinnamon	98
Japanese 'Red-eye Factor' (Fallow)	98
Lutino	99
Dark Factor	101
'Lime'	102
Turquoise ('Australian Blue')	103
'Dilute'	104
'Grey Factor'	104
'White-wing'	104
<b>COLOUR COMBINATIONS</b> .....	105
White-breasted Combinations	109
Halfsidlers	116
Melanism	117
<b>GLOSSARY OF TERMS</b> .....	118
<b>HEALTH AND DISEASE</b> .....	120
Introduction	121
Health and Happiness in the Gouldian Finch	121
<i>Essentials of Gouldian happiness</i>	
Natural Behaviour and Health	122
General Susceptibility to Disease	122
Critical Periods for Gouldian Health	123
<i>Nestlings, Juveniles, Breeding Birds, Identifying Weak Individuals</i>	
<b>DISEASE PREVENTION</b> .....	124
Control of Mites and Lice	124
Worming	125
Coccidiosis Protection	125
Disease Prevention for Juvenile Gouldians	125

<b>DIAGNOSIS OF DISEASES</b> .....	126
Dropping Analysis	126
Antibiotics	127
Emergency First Aid	127
Earliest Symptoms of Illness	128
<i>Tired Eyes (Lazy Eyelids), Inactivity, Change in Feather Colour,</i>	
<i>Fluffed-up Appearance, Droppings, Heavy Breathing,</i>	
<i>Hunched Appearance, Symptoms of Cold Stress, Noisy Respiration</i>	
Symptomatic Conditions and Treatments	129
Droppings	129
<i>Size, Colour, Dirty Vent, Smell, Diarrhoea,</i>	
<i>Undigested Seed in Droppings</i>	
Feather Loss	131
<i>On the Head, Around the Eye, Wing or Tail Feathers</i>	
Feet Problems	131
Beak Abnormalities	132
Beak Scratching	132
Eye Symptoms	132
Breathing Difficulties	132
<i>Coughing or Sneezing, Respiratory Symptoms and Deaths,</i>	
<i>Respiratory Symptoms Associated with Vomiting,</i>	
<i>Respiratory Symptoms Failing to Respond to Antibiotic Treatment</i>	
Going Light	133
Vomiting	133
Head Twirling and Stargazing	133
Breeding Symptoms	133
<i>Dead-in-Shell and Infertility, Stunted and Dying Nestlings,</i>	
<i>Sick and Dying Juveniles</i>	
<b>DISEASES AND DISORDERS</b> .....	135
Aspergillosis	135
Moulding Disease (Aflatoxicosis)	135
<i>Campylobacter</i> Infection	136
Coccidiosis	137
<i>E. coli</i> Infection	137
Megabacteria Infection (Avian Gastric Yeast)	138
Mite and Lice Infestations	139
<i>Blood-sucking Mites, Epidermoptic Mites, Air Sac Mites</i>	
Ornithosis ( <i>Chlamydophila</i> ) Infection	140
Polyomavirus	142
<i>Salmonella</i> Infection	143
Streptococcal Infection	144
Thrush ( <i>Candidiasis</i> )	145
<i>Cochlosoma</i>	146
Worms	147
<i>Tapeworm (Cestodes)</i>	
<i>Yersinia</i> Infection	148
<b>BIBLIOGRAPHY</b> .....	149
